

ADRA UNIT

Lesson three

Water

Why do people in some countries need help getting clean water?

- **Dry seasons and droughts**
- **Rivers and wells dry up**
- **Water becomes polluted**
- **No way to bring water to surface**
- **Water source is a long walk away**

- Digging wells in dry areas
- Installing water tanks and pumps powered by the sun
- Bringing clean water to schools and orphanages
- Teaching families how to keep water clean
- Providing emergency water after floods and droughts
