

ADRA

YEARS OF
JUSTICE, COMPASSION, LOVE

ANNUAL REPORT

2022

President's Message

“to SERVE
HUMANITY so
ALL MAY LIVE *as*
GOD INTENDED.”

This year marks a significant milestone as we celebrate the 40th anniversary of ADRA.

These four decades have been a remarkable journey. Through the tireless efforts of staff and volunteers around the world, and with the generous support of our partners and donors, we have been blessed to help transform millions of lives.

Children have brighter futures through access to quality education. Families are better able to support their households with improved livelihoods. Communities are healthier with access to safe water, nutritious food, and medical care. And those in crisis have received urgent support and emergency resources when they needed them most.

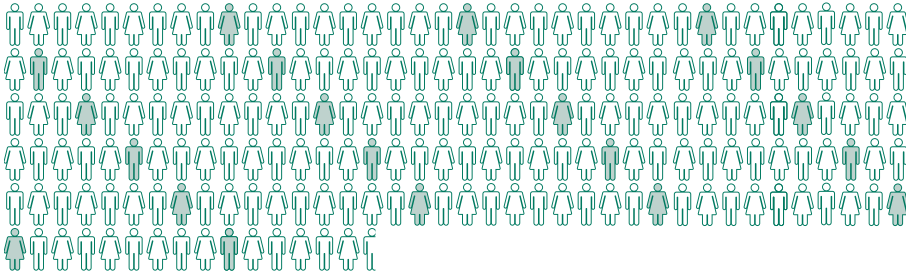

Now, as we reflect on another year of impactful work, I pray that we continue to follow ADRA's purpose to serve humanity so all may live as God intended.

Thank you for your support and for helping ADRA celebrate 40 years of justice, compassion, and love.

Michael Kruger

ADRA's response to the conflict in Ukraine is ongoing. In 2022 alone, urgent emergency assistance was provided to more than 7.5 million people in the country, and also extended support to refugees from Ukraine in several countries.

Within Ukraine, emergency support encompassed an overwhelming amount of needs, including:

- ▶ Distribution of over 18 million loaves of bread
- ▶ Delivery of 62,208 liters of clean water
- ▶ Provision of 225,729 food vouchers
- ▶ Support to 85 medical institutions
- ▶ 24,559 emergency evacuations from conflict zones
- ▶ Resources to reach 235,947 individuals with mental health, legal, and protection support

One of the millions served by ADRA in Ukraine was Yana. She initially received assistance from ADRA during an emergency distribution but soon became an ADRA volunteer.

“Helping people has allowed me to find relief and believe in a better future,” said Yana. “When you realize that you are not alone in your troubles and that you are not left to your own devices, you gain optimism and faith.”

Increasing Production & Income

A DRA is helping to improve livelihoods of agricultural producers in Mongolia through the Sustainable Agriculture, Food and Economic Resilience (SAFER-2) project.

The project has successfully trained 45 master gardeners, enabling 845 participants to enhance their knowledge of improved agricultural practices and cooking with seasonal food. Tools, seeds, garden structures, and cooking manuals were provided as part of the initiative.

Mirzabay joined the SAFER-2 project when his work as a motorcycle taxi operator didn't provide enough income to support his family. He faced several challenges, including infertile soil, but his small yard began producing positive results as he received resources and implemented what he learned.

"Year by year, my soil is getting better, and the harvest is increasing," said Mirzabay. "Now I am influencing and pushing my neighbors to grow in their yards. I am happy to be part of [the] SAFER-2 project. Thank you, ADRA Mongolia!"

Healthy Start for Infants & Mothers

The 2 million people served by ADRA in Yemen in 2022 include mothers and infants supported by the Managing At-Risk Mothers and Infants (MAMI) pilot project.

A first-of-its-kind initiative in the country, the project focuses on babies under 6 months, addressing malnutrition and illness. It also provides mental health and other support to mothers through health units and community health volunteers who receive training under the program.

Dr. Gamal operates a health unit in one of the communities served by the MAMI project.

“We used to face difficulties in diagnosing children as SAM (severe acute malnutrition) once they reached six months old,” said the doctor. Children below the age of six months often had nutritional issues...premature birth, mothers with mental health problems like depression, and teenage mothers. Now, with the MAMI program, we can assist these cases before the patients’ conditions worsen.”

Connections to Bright Futures

Take a two-day boat trip from Manaus, Brazil into the Amazon rainforest and you'll find the Massauari Adventist Technical School (ETAM) where children from five riverside communities receive quality education from ADRA.

The school was constructed in 2018 with help from ADRA Connections volunteers from Adventist colleges and universities across the US and Brazil. In 2022, the school had the privilege of serving around 50 children! These students range from kindergarten to ninth grade and receive transportation, meals, clean water, and social assistance in addition to the education provided within the school's classrooms.

"What makes this so special is that ETAM is now part of us forever," a participant from the original ADRA Connections trip said. "Knowing that children are learning in the buildings that we built and getting the support they need from ADRA makes me so happy."

Me Lllaman Migrante

MEXICO

In Mexico, one way to increase empathy between communities and the migrants they host can be found in the pages of a book.

“Me Lllaman Migrante” was commissioned by ADRA to share stories of those in mobility situations and was supported by interactive museum exhibits, social inclusiveness workshops in schools, and a film.

The advocacy effort exceeded expectations, attracting around 1,500 monthly visitors to the Museum of Tapachula and inspiring more than 800 letters of encouragement for the migrant community.

“Among the boys and girls, they commented that they should take care of each other and that they would be family from that moment on,” said psychologist José Francisco Arguello Nanduca. “At that moment, I understood the impact that this project has, and the change that it generates.”
